

To whom it may concern

This letter hereby acknowledges that AOD Cloud have engaged our company "Integrated Compliance Solutions" to assist in the preparation of their management system for certification to ISO 27001:2013.

A certification audit date has been sought and is being negotiated.

Assuming auditor availability, it is our opinion that final certification to ISO 27001:2013 can be achieved by November 2021 at the latest.
